PLAY & LEARN Classroom Resource Kit for Foundation

CONFORMS TO ALL CURRICULUMS
FOR FOUNDATION ALL OVER THE WORLD!

Meets curriculum
requirements of
all courses
for ages 3 & above

Salient Features

Comprehensively designed, the kit is packed with research based, age-appropriate material that meet the prescribed Guidelines of Pre-school Curriculum Framework.

The suggested activities and games are child friendly, engaging and enjoyable which progress in difficulty with many options for each item/manipulative.

The activities in the kit will greatly help develop the language and number skills of children and their understanding of the world around them.

The activities further develops fine motor skills, hand-eye coordination, spatial reasoning, interaction and self esteem.

Material used are child friendly, durable & sturdy, colours are non-toxic and pieces are large with smooth edges.

A much needed kit to help make the fundamentals of reading, writing and mathematics clear as a picture. It includes a variety of versatile material designed to aid in overall development of the children.

Research shows that children learn best when they can actually touch, feel, manipulate and see the concept being taught. A set of "Play & Learn Kit" includes-- manipulatives for Literacy, Numeracy and Environmental Studies in addition to Flash Cards and Charts for the classroom.
